Changes to Pupil Entrance

Dear Parent/carers/ S1/2/3/4/5/6

All pupils were recently informed at an assembly that the pupil entrance door times would change. This change relates to school security.

Our pupil entrance will continue to open at 08:00 as before. At 08:40 the pupil entrance will now lock securely and there will be no further access to the building from the pupil entrance from this time.

All young people should aim to be on time for school, which begins at 08:35. Any pupil arriving at class after 08:35 is considered to be late. Any young person arriving at school after 08:40 should now report to the Community Entrance where a member of staff will sign them in. At this point a groupcall message will be sent to all parental contacts to inform them that their young person has arrived in school, has signed in late, and indicate how late to school they are.

As per our policy, if a young person has an appointment, please inform the school of this in advance if possible so we are aware of this.

Many Thanks

SQA Have Your Say

Message from SQA.

To mark the year-long transition from SQA to Qualifications Scotland, we have published our Prospectus for Change, an ambitious blueprint for Scotland's new qualifications body. We are committed to working with everyone across the education and skills community to deliver the commitments in the Prospectus.

We're now looking for learners, parents and carers, and educators who are willing to take part in surveys and other research, giving them opportunities to have their say on a range of issues. We're keen to gather your views now, so we can help shape Qualifications Scotland together. You'll get opportunities to:

- tell us what you think
- shape decisions and services that affect you
- contribute to the development of Qualifications Scotland
- make things better for other learners and educators.

Scottish Space School 2025

The Faculty of Engineering at the University of Strathclyde is delighted to be offering the Scottish Space School programme 2025 for school pupils in S5 across Scotland. The programme will run at the University from Monday 9 to Friday 13 June 2025.

There are 100 places available on the week-long programme this year at which attendees will hear from staff at the University of Strathclyde, as well as hearing from some of the world's leading figures in space travel, including NASA Astronauts and engineers. Participants will also take part in a group project which they will present to a selection panel made up of staff from the University and NASA on the final day.

At the end of the programme in June, 8 lucky pupils will be selected to travel to Houston, USA in October 2025 to complete the 'Learning Journey to NASA' trip. There is no cost associated with attending the programme in June, or the trip to Houston in October.

Further information is available on the Space School website here:

<https://www.strath.ac.uk/engineering/scottishspaceschool/>

All pupils who are interested in attending must apply using our online form.

The deadline is Monday 17 March 2025 and decisions will be sent to all applicants by Tuesday 22 April 2025. In the application form, pupils are asked to supply the name and contact details for a teacher who can provide a statement in support of their application. May Immunisations

HPV and MMR Vaccines coming on May 22 May 2025. These are for students in S1 and also offered for S2 to S6 students who have never received the vaccine.

Evidence shows the HPV vaccine helps protect people from HPV-related cancers. The human papillomavirus (HPV) vaccine is offered to every S1 pupil in Scotland.

Getting the vaccine now protects you against future risks. HPV can lead to cancers like:

Head and neck cancers

Cervical cancer

Anogenital cancers – for example, anal, penile (penis) cancer, cancer of the vagina, and cancer of the vulva

A recent study looked at cases of HPV-related cervical cancer in women living in Scotland. It found that there have been no cases in fully vaccinated women who got their first dose of the HPV vaccine at 12-13 years old.

The HPV vaccine also protects you against over 90% of genital wart infections.

School Contact

When calling Inveralmond Community High School, you will be asked to select an option so that you can be connected with the right team in the school. Our staff have been trained to ask you a few questions so that they can direct your call to the person or team who is best placed to support you with your query.

In line with our school values, please be patient and kind while they gather all the information they need from you. In order to direct your query staff will need to ask for your full name; if you are calling about a pupil they will ask for the pupils' full name and your relationship to the pupil. It would also be helpful if you could tell us the pupil's tutor class or house, and in order for us to prioritise calls we will need details of what your query relates to.
